(a)
MSE against the function, no noise
polynomial, Runge
1-M-1 network, Runge
polynomial, cos 3x
1-M-1 network, cos 3x
ρ^{-2d}, ρ = 1.22
number of parameters
(b) Runge
MSE against the function
number of observations n
(c) cos 3x
best polynomial by CV
network, same updates
network, 10 times as many
MSE against the function
number of observations n
